-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1-7 and 14-19, in the reply filed on 14 November 2005 is acknowledged.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. As held in *Ex parte Dotter*, 12 USPQ 382 (Bd. App. 1931), the phrase "selected from the group" must be followed by a closed (rather than open) language transitional phrase. For example, "selected from the group consisting of" is acceptable, while "selected from the group comprising" is not. In the instant claim 5, the phrase "selected form a group including" is indefinite because the word "including" is an open language transitional phrase, which implies that the group has additional members not listed.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States

Art Unit: 1723

only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-7 and 14-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Biber (US 6,960,012). Regarding claim 1, Biber ('012) discloses a system comprising a holder (22) comprising a clamp (76) having a plate (78); a motor (34); and a platform (170 and optionally including 166 and/or 168) for being removably placed within the holder. Regarding claims 2, 3 and 7, these claims discuss unclaimed containers rather than the claimed structure. Applicant is reminded that "the manner or method in which such machine is to be utilized is not germane to the issue of patentability of the machine itself" *In re Casey*, 152 USPQ 235 (CCPA 1967). Regarding claim 4, the platform includes a stop proximate the edge of the platform (see Fig. 16). Regarding claim 5, the platform is composed of a material selected from a group including a metal, a polyester resin and a resilient material (see col. 5, lines 3-9). Regarding claim 6, the perimeter of the platform is less than the perimeter of the holder (see Fig. 2). Regarding claim 14, Biber ('012) discloses an apparatus comprising means (22) for holding comprising a means (76) for clamping; means (34) for moving; and means (170 and optionally including 166 and/or 168) for adjusting height configured for being removably placed within the means for holding. Regarding claims 15, 16 and 19, these claims discuss unclaimed containers rather than the claimed structure. Regarding claim 17, the means for adjusting height includes means for stopping (see Fig. 16). Regarding claim 18, the perimeter of the means for adjusting height is less than the perimeter of the means for holding (see Fig. 2).
